Your time is slipping away like sand. Be sure to read this letter! It is very imp ortant for you. The text had to be made diffi cult to read in order to send you this mess age.

The countdown to your time is almost over. Som ething imp ortant has happened that I would like to tell you about. I gained access to your devices through certain websites that you visi ted . These sites allowed me to infiltrate your system. One of them con tained a special code that I used, and it worked perf ect ly. Now I can see eve rything that happens on your screen and even around it.

I have saved copies of your most inte resting files and have the contacts you interact with most often. I also have access to your entire browsing hist ory. At first, I thought about del eting ever ything I found on your dev ices and moving on. But after looking at the webs ites you reg ularly visit, I cha nged my min d. I'm ref erring to websites with quest ionable conte nt.

Then I had an idea. While I was on your home netw ork, I installed a backdoor on your cell phone so I could use your phone's cam era. I just wanted to see what a porn lover looked like, and I expected to see a boy, but I saw you. By the way, I had to wait a long time for the right moment, but it was worth it. Without going into the dirty deta ils, I ended up reco rding a 5 minute porn movie starring you. I'm sure this movie will impress all your friends and all Int ernet use rs.

In short, since you're in a shitty sit uation and I need money, I'm offering you a deal. You send me the money, I'll delete all data about you, and we can both forget this ever happe ned. I'm asking for USD 1696 in BTC. Wallet to which the money should be sent (remove spaces from the wallet add ress so that the string is cont inu ous):

At that mom ent, the cou ntdown began . You have as many hours as you are years old to send the money. I think that's enough time, and it seems fair.

You may not believe me, you may say that this cannot be true, and so on. Fine, that will be your choice. I will not waste my time on you, but will simply publish all this inapp ropriate content about you on all social net works and send it to all your friends.
